

## Conflict Materials Policy

Sirijaya is committed to ensure that our suppliers of metals do not buy material originating in "Conflict Region".

Sirijaya is working with all suppliers to confirm that their supply of materials do not contain conflict minerals (Tantalum, Tin, Gold and Tungsten) that made from illegally in the Democratic Republic of the Congo.

Sirijaya require all our suppliers to provide written evidence documenting that raw materials used to manufacture products supplied to us originate from outside the "Conflict Region".

Sincerely,

KW Liew  
Managing Director
